

# KEEPER PLATE WITH ANGLE ADJUSTMENT GT63R006

## Product Datasheet

### Features

- Adjustable - 60° each into the respective direction
- Provides surface ground
- Protected against corrosion

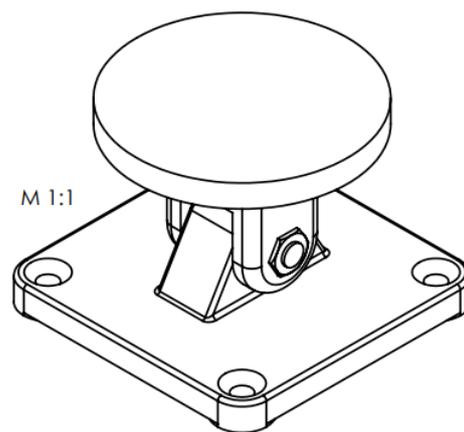

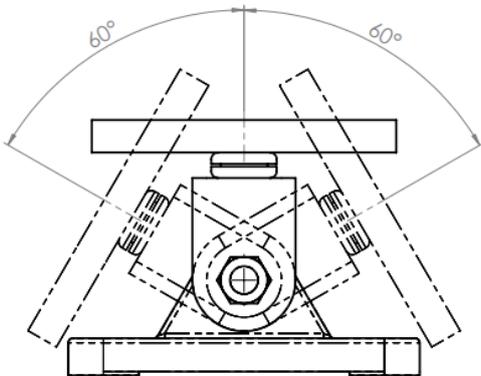

### Description

The keeper plate GT63R006 is to be used with the door holder magnet GT63R062.

The keeper plate is designed for applications where the door has a stop bracket. The plate provides surface ground and is protected against corrosion.

Due to the joint, the keeper plate can be adjusted and set with 60° each into the respective direction (as shown below).

Part number	Description
116-6731-016.0011	Keeper plate with angle adjustment GT63R006

Technical specifications	
Dimensions (H x W x D) mm	75 x 75 x 55
Diameter (mm)	65
Mounting	On wall
